Mother of Pearl (Sturtevant)

*See other side for description.*

## DESCRIPTION

*f*

# Iris Mother of Pearl

**S**TANDARDS and falls pale bluish lavender, with a faint creamy undertone. Large flowers of perfect form and exceptional substance. The creamy undertone of this exceptional substance often assumes the luster and iridescence which we see in the beautiful lining of many sea shells which produce mother of pearl. The plant is tall, a vigorous grower and a profuse bloomer.

Mother of Pearl is a real gem of beauty, an aristocrat among Irises. Its splendid iridescent color, its perfect form, its vigorous growth and wonderful substance have won for it recognition as one of the world's best Irises. This variety is included in every Iris collection of merit in the United States, and should be in your Iris section.

**Strong, Healthy Roots \$1.00 Each**

**STANLEY C. ROSEFIELD**

Thirty-fifth St. and Blue Ridge Blvd.  
Route 3, KANSAS CITY, MO.

## Two New Rosefield's Introductions

**HARRY L. RICHARDSON**

Clear, deep, bright red or crimson. Full rose type, perfect in form. Possesses an unusual rose fragrance seldom met with in red peonies. Very late in blooming, this variety is a free bloomer, opening its flowers in perfect shape. Fills a long felt need for a free blooming, late red peony.

Each, \$25.00

**GENE STRATTON PORTER**

Pure immaculate white. Rose type, cup-shaped with fine incurving petals growing shorter toward the center. Strong upright grower and a free bloomer.

Each, \$25.00
